PART III.—MRS. NEVILLE'S STORY

(CONCLUDED).

CHAPTER XXV. AND LAST.

I must tell the reader of my story in

my own words and after my own fashion.

The events I have just related were told to

me by my own eyes, but by degrees and in

detail. The events which followed

were told me by my own eyes, but by

degrees and in detail. The events which

followed were told me by my own eyes,

events which followed were told me by

I was young. Mrs. Neville, she loved you;

she loved to listen to you.

His words seemed to soften her.

"What would it have been?" she asked,

gently, still looking at him. "You have

forgotten you; but you cannot alter the

fact that when you were young you were

married to a man who was a wife's life."

"I had, but I did not know it. I was

so young, and I loved you so much, and

you, I did not know it."

She raised her dark eyes and looked at

him.

"You did not know it?" she asked,

sadly.

"I thought that poor fellow woman

was dead. Hilda, in the earliest days of

our love I told you I had committed a felony

in my youth, and I begged of you to let

me tell you what it was."

"Remember," she said, gravely.

"I had, but I did not know it. I was

so young, and I loved you so much, and

you, I did not know it."

"London, Hilda," I urged; "in honor

you are bound to tell."

"I will," she said. "Tell me your story,

Lord Wynton."

"I thought I am ashamed to tell,"

begin Lord Wynton, "yet I did not wish

that was dishonorable. I went to Paris

when I was very young, more than

thirteen. I was married to my own master,

and was one of a circle of young men,

some of them, I may say, mine. We were

not really young, but we were 'fast' and

reckless. We frequented the theatres and

the gambling saloons. One unlucky

day I was introduced to a young actress

whose name was Isabelle Drake. You have

heard of her name in connection with the

bright, sparkling chain of manner which

seemed to me then the most captivating

Ferdinand von Kattmann, a member of

the Prussian aristocracy, will shortly make

his debut as Mignon at the Berlin opera

house.

Mr. Bell, the glass worker of Paris, has

just finished the construction of a crystal

lens for the great Vienna refractor. The

diameter is twenty-eight inches and the

weight 112 pounds.

Samuel Fletcher Smith, an American

lady has bequeathed her body for dissection

to the Royal College of Surgeons, London,

only asking that women students

shall have the first choice.

Professor Trenchard of Williams College,

has announced his intention of making an

expedition to Labrador, taking with him

his students who are to accompany him.

The expedition will start about July 1st

and return about the last of September.

The proposed cremation of the body of

the late deceased Baron de Palm, in the

city of Lyons, France, has been

prevented by the experimental

cremation of a dead animal, which

showed that the furnace needed a little larger vent

in order to secure a perfect cremation.

Twenty-six English Unitarian clergymen are ex-Baptists.

Cardinal Manning is about to proceed to Rome on urgent business.

The Lutherans have ordained three colored men to the Ministry in North Carolina.

The Chicago *Advocate* is warmly advocating the right of women to speak in church.

A seminary for the religious education of natives of Norway has been opened at Christiania.

The Will of Eliza Powers, just filed at Boston, gives to the American Unitarian Society \$50,000, and \$40,000 to sundry other local charities.

Recently two Jews were elected to the Italian Senate. Ten years ago Jews enjoyed no political right in Italy.

There is in India a community of Jews called Beni-Israel, whose ancestors settled in India 1,600 years ago.

In the United States at present there are 1,285 Catholic theological students, while all

The Rev. Dr. Barry, of Fond du Lac, Wis., a prominent Universalist, is said to have recently changed his belief and become a Congregationalist.

All Hallows church in Broad Street, just out of Chancery, London, is to be destroyed to make room for business. It is over 300 years old, and John Milton was christened in it.

The Archbishop of Canterbury has the

In the last thirty years \$30,000,000 says that priestly life is members of the Church of England. The old churches and on the building of new ones.

The Cantuane of Hungary have elected the Rev Joseph Ferenc as their bishop. They are the only bishop of the synod which then the new bishop fifteen young men were ordained to the ministry.

The Queen of Madagascar has named a priest as her chaplain. He will go to run, because the run does harm to the run, sends you possessions to visit, harm you, and the run does harm to the run, the run makes more foolish the foolish, the run, the run.

The need of Judaism in America, as noted by the *Jewish Messenger*, is educational for the Jewish people, which has been instilled in the religious schools not attached to every place of worship.

The Pullerites constitute a community of priests in the United States.

The *Spiritual Scientist* takes a sensible view of the recent exposures of imposture in Spiritualism, and welcomes an effort that shall tend to eliminate from Spiritualism the vast amount of imposture and corruption which has so long crushed it to earth.

A man in Philadelphia wanted to be excused from serving on a jury on the ground that "he was a saved sinner, and could not sit in judgment on his fellow men." The Judge thought

The popular movement for the suppression of tipping on Sunday in Nashville is having its effect. The Chief of Police reported that "for the first time in thirty years a drunk man was not seen on the streets on the second Sunday after the temperance folks got to work."

Lady Rolfe has promised to give the sum of £40,000 to the fund for supporting the new English Bishops of Truro, in Cornwall.

The following singular advertisement is taken from the London Daily Telegraph: "Wanted, by a clergyman of the Church of England, a chapel for Christian worship. Not Popish or Pagan. To be open for service without any connection whatever with the Low Apostate Church of England."

The wife makes the home, and the home makes the man.

Help others when you can. Never give what you cannot afford, simply because it's fashionable.

Systematize your business, and keep your eye on little expenses. Small leaks sink great ships.

When a man dies, men inquire what he has left behind; angels inquire what he has sent before him.

An anxious man requires as much at the hands of his neighbors as he gives to them.

There is this difference between hatred and pity, pity is a thing often avowed, but seldom felt; hatred is a thing often felt, but seldom avowed.

The mind of childhood is the tenderest, holiest thing of earth. Let parents stand as watchers at the temple, least any unclean thing should enter.

True greatness consists in doing what deserves to be written, in writing what deserves to be read, and in making mankind happier and better for your life.

It is foolish to expect the five following

A generous mind identifies itself with all around it; a selfish one identifies all things with itself. The generous seeks happiness in promoting that of others; the selfish man reduces all things to his own interests.

Never sit down and brood over trouble of any kind. If you are vexed with yourself or the world, this is no way to obtain satisfaction. Find yourself employment that will keep your mind active; and depend upon it,

When a person speaks untruth, he has dressed himself clean to no purpose. The clothing of our minds is certainly to be regarded before that of our bodies. To betray in a man's talk a corrupt imagination is a much greater offence against the conversation of gentlemen than any negligence of dress imaginable.

A Scotchman being examined by his minister, was asked: "What kind of a man was Adam?" "Oh, just like other folk." The minister insisted on having a more special description of the first man, and pressed for more explanation. "Weel," said the Scot, "naebady got any thing by him, and many lost."

L.O.L. No. 747.—The following are the officers of Toward L.O.L. No. 747, for the ensuing year.—Bro. Thos. Waterhouse, W.M.; Bro. H. D. M., Wm. White, Chap.; Wm. White, Sec.; J. A. Bell, Treas.; A. M. C. D. of C.; Committee, John Countryman, John Mathews, R. McLennan, John Alexander, C. J. White.

Dr. G. A. Clarke, of Manchester, England, will visit Belleville, on the 14th inst., and remain on each occasion for one week. CHAS. DICKSON, of all kinds made a specialty. All those afflicted will find it to their advantage to call upon him. He is at present stopping at the Anglo-American Hotel, where he will remain until Tuesday, Dec. 19th. Dr. Clarke is a physician of over 20 years' experience, has the highest recommendations and has been remarkably successful in all cases that have come within his practice. St. John.

The Grand Central Hotel, New York, has reduced its rates from \$4.00 to \$3.00 and \$3.00 per day.

THE PIRATES OF NOVEMBER AT STIRLING.—The brethren of L.O.L. No. 110, of Stirling, celebrated the 5th of November by attending at St. John's Church, Stirling, in a body, where an appropriate service was given by Bro. F. L. Stephenson, the Incumbent. The Church was crowded to excess, and the service was listened to with the greatest attention, after which a very handsome dinner was taken up for the benefit of the Rev. preacher. This was succeeded by a Discus on the evening of the 5th, in which the guests were by a large number of their outside friends; it was a very pleasant occasion. Speeches were made by the Rev. Mr. Stephenson (Chaplain of the Church), Mr. Gray (Moderator), and several others, the proceedings terminating about midnight.

Board of Education.

TUESDAY, Dec. 12th.

The Board met at 7:45.

PRESENT.—Messrs. Shepard (Chairman), Townsend, A. Diamond, McMillan, Haskins, Young, Diamond, Newbury, Bell, Tracy, Diamond, Newbury, Wells, and Northolt. The minutes of the last meeting were read and approved.

The Secretary read a communication from Samuel Armitage, stating that he was unable to procure a suitable substitute in Utah, and asking to be allowed to continue his duties as Head Master of School No. 1 after the Christmas holidays.

Mr. Yeomans, the Chairman, then presented the report of the Finance Committee, recommending the payment of salaries and accounts, amounting to \$2,728.25.

Prof. Bell stated that he had received from Mr. Coleman his ultimatum as to the price of land for school site in Coleman Ward. Mr. Coleman was willing to sell any quantity of land, but at the same rate as he had sold to the Episcopal Methodist body for a site for a church, namely \$2,000 per acre.

Mr. Yeomans moved the adoption of the Finance Committee's report. Mr. Bell intended to retire. Since he had not intended to offer for re-election, and would not probably attend the next meeting. He was happy to say that the examinations had proved very satisfactory, and he would not that he had acted in all cases solely for the interests of the school. He had always held that the teacher was the school. They might build first-class buildings, but unless they put good teachers into them, they would have but feeble schools. The schools of Belleville had improved very much; they were now second to but few in the Dominion, and he strongly hoped that in another term they would be excelled by none.

He found that on the north side they had the glass, whilst on the south they were not so low. This he attributed to the difference in the position of the buildings, which, when heated to a certain extent, would generate and give out heat.

Rev. Mr. Burke, who came in during the discussion, and when the order of the day was discussed, the school closed, as the weather was so cold, as it was deleterious to health.

Prof. Bell said that he considered the prevalence of gas to be a great evil on one side of the building than on the other was due to the direction of the wind. He moved say, he had already indicated.

Mr. L. Diamond, school No. 2 included in the motion, as the furnace in that school did not give out sufficient heat. He had found the school so cold recently that he had been wearing an overcoat, and was told by the teachers that such was frequently the case. Moreover, the amount of wood consumed was very large. He was satisfied that no prison in the Dominion was more uncomfortable than these class rooms.

The Chairman thought it would be better to make this a separate motion.

Mr. Wansley had had on Saturday night one of the windows in the north end of No. 2 school open. He also saw two open windows in No. 3.

Mr. Diamond said the caretakers were probably engaged in cleaning at the time. Mr. Wills had given a good deal of attention to the question of heating. Mr. Lockwood informed him that his coal was Seranton, so there was no difference in the coal, as believed by Mr. Diamond. A good deal of the difference was in the management of the furnaces. There was in each furnace a valve to allow the gas to escape into the chimney, and if they were not turned, the gas would be escape somewhere. He found, that, for the most part, the gas was not turned, and it might be well to replace them.

After some further discussion, the motion was put and carried.

Mr. L. Diamond, seconded by Mr. Yeomans, that the matter of the heating of No. 2 School be referred to the Committee for the School, in conjunction with the building Committee.—Carried.

A deputation to the Board of Education to the lighting of the High School during the intermission examination.

After a long discussion, the procuring of lights was authorized.

Prof. Bell stated that this would be his last session at the Board, as he did not intend to offer for re-election, and would not probably attend the next meeting. Daily Intelligencer.

PHELYVILLE, THURSDAY, DEC. 14

Municipal Elections.

The following is a list of candidates for municipal offices who have up to the present time, announced their intentions through our columns.

KETCHESON WARD.—Morgan Jellett, Thos. Holden, James H. Hamby, J. W. Johnson.

FOSTER WARD.—Frederick O. Ridley, N. B. Finkler, David Brown.

ROSS & DAVIES.—James Moughler, John Wiley, Samuel Hamby.

SAMSON WARD.—Nelson Lingham, George D. Dickson, John T. Latham.

MURNEY WARD.—George (H. H.) Jones, Thomas Sullivan, J. N. Yeomans, David Holden.

BALDWIN WARD.—O. F. Smith, John P. Haley.

FOR MAYOR.—W. A. Foster.

Town and Vicinity.

COUNTY COUNCIL.—The business before the Council having been disposed of, that body adjourned shortly before 1 o'clock to-day.

POSTOFFICE.—The weather being unpropitious, the opening of the skating rink, which was to have taken place to-morrow evening, has been postponed until further notice.

DR. BULLER, M. R. C. S., England. Oculist and Aurist, of Montreal, will be at the Dufour House during the last three days of this month.

Furs! Furs! Furs!

Cheap John has just received a large consignment of GENUINE BEAVERS, which must be cleared out in a few days. The very best quality of FURS FROM \$2 TO \$40, received direct from the manufacturer. Call and examine for yourselves.

RAY FISHING.—Those fishermen who make a profession living during the winter by catching fish through holes in the ice are going into business in earnest. No less than seven of their little boats are now on land-lake, where they observed making a tedious journey up the bay on the ice on Tuesday.

MIDWINTER.—The canvass goes bravely on, there being now upwards of twenty candidates in the field. Only one thing is certain, namely that all the aspirants cannot be elected, as the Council consists of fourteen members. After incorporation as a city a chance will be given to seven more than can now be chosen.

EXEMPTIONS.—At this morning's session of the County Council the question of exemption from taxation was debated at considerable length, and finally a petition praying for the abolition of exemption was adopted and ordered to be signed by the Warden and Clerk and presented to the Legislature.

SACRED CONCERT.—A grand concert of sacred music is to be held in the Bridge Street Church on Wednesday evening next. The Tenth brothers, of Kingston, whose excellence as singers is well known, will take part, and as they will be assisted by Mr. Whish, organist of the church, and a full choir, a rare musical treat may be expected. Admission is free, and collection will be taken to assist in removing the debt due on the organ.

HOUSE AND ICE STORE.—An Friday last Mr. John C. Rose, formerly stable keeper at Frankford, hired a chestnut mare and a buggy to a man calling himself Young "Joe" as up to be returned on Sunday. As it was up to-day, the chestnut mare was longed had made their appearance in Frankford. Mr. Rose has come to the conclusion that his property has been stolen. In this belief he has notified the police of Naperville, Kingston and other places.

ST. GEORGE'S SOCIETY. Theological and literary entertainment to be given by this Society will take place in the Town Hall this evening. The programme, in view of vocal and instrumental music, comprises speeches by Rev. Dr. Jacques and Mr. Horton, readings by Messrs. Newbury, Lewis and Wilson, and a recitation by Mr. Llewellyn. As the proceeds, after expenses have been met, will be devoted to the benefit of the poor.

FIRE. About 9 o'clock last night a fire broke out in Mr. M. J. Granger's clothing store, Front Street. An alarm brought the firemen quickly to the spot, the cause of the fire being a short time powerful stream was brought to bear, but the fire had got a strong hold, and was difficult to overcome. The roof was of sheet iron, and the flames having caught the wood beneath it was a very long time to get at them, several hours being consumed before this could be done. As the smoke was very dense, but little was saved, and the store was lost to be large. Mr. Hiron was absent in

at points at the time of the fire, therefore we are unable to give a full description of his loss. The building is the property of Mr. R. H. Richardson, of the Montreal Bank, and though the walls are unharmed the interior is a complete ruin. The origin of the fire, unknown. It is supposed to have originated in the store, though the point is not perfectly clear. Mr. Granger is insured for \$5,000 in the St. Michaels.

Grand Central Hotel. New York. The hotel in the present season has been closed. It has reduced its rates from \$4.00 to \$2.50 and \$3.00 per day.

CONGRESS JOURNAL.—"If there is one thing more than another," remarks a contemporary, "that may be declared a deficiency in the Administration of justice, it is the absence of a law which will provide for the payment of Congress's juries."

All members of persons are protected by legislative enactment but those juries, whose service is just as much important as constables and coroners, but who may be put to all sorts of inconvenience and loss and annoyance, without receiving even thanks for the public duty for the public benefit. Men have grumbled and objected to the juryman, but the law says "you must serve."

It should be a little further, and when compelling men to do duty for their country, to what may be reasonably expected under the circumstances, see that they are paid for it. We do not think that payment should be made to Congress's juries in all cases, but it might be well to pay jury men when more than one sitting is required, to determine the cause of death, or fire, as the case might be.

GRIP.—This cartoonist occasionally makes a capital hit. The last number contained one of them, over the title of "THE REVENUE OFFICERS," in which the difficulty between Archbishop Lynch and the Irish Commission is well brought out. We have Patrick Boyle standing before the pulpit of Archbishop Lynch, a shamrock in his hat and a hand organ which Irish Dirges "and fancy music," with Mr. Patterson upon his shoulder in the representative character of a monkey; besides him stands McCroskey, the new publisher of the "Tribune," also with an organ, which is labelled "Hear my church, organ, and sing to me," with the Hon. George Brown sitting on his shoulders as the Grim knocker. Standing in the door of the place is Archbishop Lynch with a placard in his hand, upon which is printed "The Catholic body, as such has no accredited organ, as far as I know, in this Province," and pointing to the organ grinder, "Move on there! No party tunes wanted here!" Taking it as a whole it is an admirable picture, particularly as the Hon. George, who is now piping tunes to suit the Church of Rome.

TOWN COUNCIL. Wednesday, Dec. 13.

The Council met at 8 o'clock, pursuant to adjournment.

PRESENT.—Messrs. Patterson, J. H. Hamby, F. A. Latham, Pope, Betty, Smith, Franks, Henderson, Helms, and Dr. G. C. The minutes of the last meeting were read and approved.

Mr. Patterson presented a report from the St. George's Society.

The following communication from the Police Magistrate was read:

DEAR SIR.—Mr. A. T. Pettie to-day asked me to swear him in as Chief Constable of this Town. He at the same time presented me a letter from the Chairman of Market and Police stating that Mr. Pettie had been appointed to that position and that Mr. Nelson had been removed, and requesting me to administer to Mr. Pettie the oath of office.

Upon enquiry of Mr. Newbury, the Clerk of the Council, I had that the removal of Mr. Nelson and the appointment of Mr. Pettie, based solely in a report of the Market and Police Committee, and that the last meeting of the Council, the report of the Market and Police Committee, recommending the removal of Mr. Nelson and the appointment of Mr. Pettie, was adopted and ordered to be signed by the Warden and Clerk and presented to the Legislature.

TELEGRAPH.—No dispatch has been received to-day, the line having been protected in several places by the gale.

Smelting Iron with Petroleum.

As our readers are aware, experiments have been made of late in Marmora by Messrs. McCordale and Holmes, of Chicago, with the view of determining the highly important question, whether or not iron can be successfully smelted with petroleum as fuel.

It will readily be apprehended by all who give a moment's consideration to the subject, that were the experiment successful, a great improvement would be made in the smelting of our back country, of the value of the ore in which, and the extent of the deposits, it is not necessary to inform those who have perused our columns in past years.

From time to time we have had reports discouraging regarding the experiments of the gentleman named, but it affords us no pleasure in being able to announce that our information is such as to justify a belief that their operations have resulted in a success which is most gratifying.

Using the ordinary blast furnace, the use of petroleum in producing a quality of iron of superior excellence, it being, as taken from the smelting furnace, fit for use without undergoing the further process of puddling and rolling.

Specimens of the iron cast from it, and of the pig-iron heated in a blacksmith's forge, and hammered out into various forms, were exhibited, proving conclusively the success of the experiment.

The art of producing a ton of iron at Marmora, by the use of coal, would be not less than \$20 per ton. Messrs. McCordale & Holmes inform us that, by the use of one and one-half barrels of petroleum, the cost of producing a ton of iron at that cost, to exceed one-third of that amount.

It needs not to be said that we should rejoice on these facts. They bear on their face the announcement of a revolution in the manufacture of iron, and a certainty of the utilization of our vast mineral wealth, which has too long lain dormant.

With such a prospect in operation, there would be a sure return for investment, consequently the trade would be largely engaged in, and Belleville would become the great centre of the iron trade—the future Pittsburgh of Canada.

Messrs. McCordale & Holmes are not prepared to put up for sale, but we understand that they are now on their way to Toronto, at the request of certain parties, to exhibit the result of their experiments, which, if satisfied with the result, they intend to propose to establish a plant in that city, bringing the iron of Marmora and the iron from Marmora.

As the inventors are willing to sell their process and to put up the necessary machinery in any work which may be undertaken, the question arises, would it not be advisable that the profits to be derived from the manufacture of iron by this process, if it is proved beyond doubt to be indeed what it is represented to be, and that we are led to believe it to be, should be secured for our own town. Belleville stands in relation to Marmora and Madoc, in a much more favorable position than does Toronto to any possible source of supply.

The half-tonnage of the iron, which is so much greater than the carriage of petroleum to Belleville, that we have a good reason for our favor.

We present these facts for the consideration of the municipal near the town. It is for them to take such action upon them as they may see fit to take, consistent with their own interests and those of the community of which they form an important part.

To Visit Toronto.—It is announced that the Earl and Countess of Dufferin will visit Toronto next month and be the guests of the Lt.-Governor.

TRADE WITH WEST INDIES.—Mr. Geo. Mason, of Kingston, Jamaica, who has been in Toronto, interviewing merchants with a view to establishing direct trade with the West India, calls for Jamaica on the 27th instant, bringing with him a large quantity of samples of Canadian goods, which will be publicly opened in the presence of the Governor of the Island, Sir George Grey. He says that the feeling in the Island is decidedly favorable to a direct trade with the Dominion.

LT.-GOVERNOR OF QUEBEC.—An Ottawa telegram says that Hon. Mr. Letellier de St. Just has been appointed Lt.-Governor of Quebec. Hon. Mr. Letellier has been a member of the Imperial Parliament for the past thirty-four years. He was a member of the Reform Government, as Minister of Agriculture, in 1863-64, and on the present Ministry standing in place of the same office under the premiership of Hon. Mr. Mackenzie, which he has held up to the present time. He has been leader of the Opposition in the Senate from 1867 to 1873.

CONSUMPTION.—Montreal reports say that mercury continues abundant, and the market is quiet and easy. There is no change to note in rates, call loans on stocks ranging from five to six per cent, and good commercial bills being discounted at seven to eight. Sterling exchange is easier and firmer. The general inactivity in the stock market has been the cause of the week's decline in the market.

BELLEVILLE, MONDAY, DEC. 18.

Municipal Elections.

The following is a list of candidates for
municipal honors who have up to the pre-
sent time, announced their intentions
through our columns:

For Mayor.—W. A. Foster, and Alex.
Robertson.
Commons Ward.—James St. Charles.
Ketchum Ward.—Margaret Jelliffe.
Thos. Holden, James H. Hamby, J. W.
Johnson.
Foster Ward.—Frederick C. Ridley,
N. B. Palmer, David Beatty.
Barker Ward.—Jas. McHugh, John
Doyle, Samuel Hamblin.
Samson Ward.—Nelson Lingham, George
D. Dickson, John T. Lattimer.
Murray Ward.—George H. Pope.
Thomas Sullivan, J. N. Youngman, David
Holden.
Baldwin Ward.—C. F. Smith, John
Fahy, R. S. Patterson.

Town and Vicinity.

Don't forget St. George's Church
concert on Monday evening at the Town
Hall.
Police Court.—There was nothing to
engage the attention of the Court this
morning.

Snow.—There was another light fall
of snow last night, but nothing as yet very
poor, owing to the small quantity of snow
which has fallen and to the large amount
of drifting which has taken place.

The Grand Central Hotel, New York,
has adopted the railroad plan of "cut rates,"
and announces a reduction from \$4.00 to
\$2.50 and \$3.00 per day.

Entertainment.—The gentlemen of
Albert College Grammar School give their
entertainment to-morrow evening, 10th
inst., in the College Chapel. The pro-
gramme consists of vocal and instrumental
music, recitations, orations, and essays.
Admission same as this evening, 10 cents.

The Deaf and Dumb Institute.—The pupils
of the Deaf and Dumb Institute were
with the promised lecture on "The Siam
Railway," by Mr. Davis, of the Grand Trunk
Railway, on Friday evening last. They
were very much interested, and at the close
D. J. McKillop, a assistant teacher, a deaf
mute, made a few remarks, returning hearty
thanks to Mr. Davis for his kindness, which
was unanimously endorsed by all present.

The Gale at Bridgewater.—Our
correspondent writes on the 10th inst. that
the gale commenced soon after midnight, cer-
tainly the heaviest we have had for a long time,
and continued up till this evening. During
the day the thermometer showed ten
below zero. A few cases of frozen ears and
noises belonging to sundry travellers were
reported, but no other casualties except
the roof being partly taken off a cow stable
in the village. The weather is now calm
and very cold.

Dr. G. A. Clarke, of Manchester, England,
will visit Belleville every two weeks, and
examine each case for free. Consultation
free of all kinds made a specialty. All
those afflicted will find it to their advantage
to call upon him. He is at present stopping
at the Anglo-American Hotel, where he will
remain until Friday, Dec. 19th. Dr. Clarke
is a physician of over 30 years' experience,
has the highest recommendations, and has
been remarkably successful in all cases that
have come within his practice.

Station Lumber.—For the last two
weeks the police have been crowded
with traps, driven into shelter by the
extreme coldness of the weather. On Sat-
urday last twelve of those unfortunate
creatures roamed in the cells, and last night
not less than fifteen half-frozen men
and women were crowded into the cells.
The last lot of traps was the most numerous
accommodated with a night's lodging in the
cells here.

Parasitism.—The following are the
weather predictions made by Prof. Tice, of
St. Louis, for a portion of the month
of December. It will be interesting to see
what degree they prove correct.

10th to 12th.—Barometer rising, tempera-
ture falling, clear or fair, but cold.

12th to 15th.—Moderating, barometer
falling, temperature rising, cloudy and
frequent showers.

15th to 18th.—Barometer rising, tempera-
ture falling, clearing, but cold weather.

18th to 20th.—Moderating, barometer
falling, temperature rising, cloudy threat-
ening weather, with rain, snow, or
sleet.

20th to 22nd.—Barometer rising, tempera-
ture falling, clearing, but cold weather.

Another Cold Snap.—Friday night's
cold proved the precursor of an exceedingly
cold storm, ranging to Saturday night, and
to the present time. The month of De-
cember in the present year has so far
proved colder and more stormy than any
previous December for several years past.

Late.—The mail train from the west was
one hour behind time to-day, the cause
being the large quantity of snow on the
track in places.

Curling.—The Belleville Curling Club
has been drawn against the Varsity Club.
A meeting will be arranged for the 20th inst.
at 8 o'clock. The match is to be held to-morrow evening at
8 o'clock.

The Gale.—Telegraphic advice state
that the gale of Friday night and Saturday
was general east of Michigan and in the
Northern States. Heavy snow falls, ac-
companied by high winds and intense cold,
are reported from various quarters, the
damage to shipping and other property be-
ing very considerable. Sea and air are
known to have been cold. The thermometer
ranged as low as 55° below zero at some places.

A Hungry Monster.—"Uncle Sam"
is a hungry monster. Not content with
purloining millions of acres from Canada
every year, he now shows a strong hang-
er after the fowls which produced his
summer diet. The Brockville Recorder
of the 10th inst. says: "Fifty-seven
thousand pounds of poultry, intended for
the Boston market, was shipped from this
place this morning. It was purchased by
local dealers of Smith's Falls and Perth at
the recent poultry fair held at this place. It
is intended to ship them by Grand Trunk
to Ogdensburg, and from thence by the
Home, Watertown and Ogdensburg Road."

Melancholy Accident Near Stirling.
Two Children Drowned.—On Thursday
last, the 14th inst., whilst two children of
Johnston Adams, of the city, were taking
a short distance from Chatham's Rapids, Rich-
mond, aged 8, and Augustine aged 10 years,
were returning home from school, they fell
through the ice and were held. The child-
ren failed to reach home at the usual hour,
Mr. Adams went to meet them, when he
found the two children in the water, when
they were rescued. The children were found
in the water at the bottom of the river.
Adams was at once called, and the bodies
were taken out of the water. The children
were buried at Stirling. The water was a
little more than four feet deep when they
fell in. It is supposed that they met with an
accident, into which they fell.

Metamorphosis.—Prof. Dawson, Station
Observer, states that the weather on Friday
evening and Saturday morning was of the
responding period of last week, but has been
considerable cold. At 9 o'clock on Friday
evening the temperature was 22° with very
low barometer and very high wind from the
W. and S.W., but during the night the tem-
perature fell rapidly, registering 31° below
zero at 7 o'clock a.m. 74° below zero at 1 p.m.
and 71° below zero at 3 p.m. The tem-
perature on Saturday morning was lower
than that of Saturday, but on Sunday after-
noon there was a slight increase, bringing
the maximum temperature to 1° below zero,
and this is the highest point reached by the
mercury during the present storm. The
minimum temperature on Saturday night
was 10° below zero, and this is the lowest
point yet reached during the present season.
To-day the temperature ranged from 7° to 31°
below zero, but owing to the snow and overcast
state of the sky the cold is not so keenly felt.
The fall in the thermometer was accompa-
nied by a rapid rise of the barometer, which
indicated an atmospheric pressure of 30.1 inches
on Sunday morning; but has fallen steadily
since then. The probability is a gradual
but immediate rise in temperature, accompa-
nied or very closely followed by snow.

Building Operations.—No further in-
formation having been received in response
to our invitation to owners and builders to
furnish details, we now proceed to sum up
the results of the building operations of the
year. The returns published by us
show that 53 new buildings were erected in
town during the year, of which all, except
some 8 or 10, were brick or stone, the great
majority being of the former material.
These structures comprised two churches,
one opera house, an addition to the Shire
Hall, and a Separate School; leaving 48
buildings, containing 16 shops and 62 ten-
ments as the addition to the town. The
business premises and dwellings for the year.
Nearly all these buildings were of a
very superior class, the cost of seven of
them footing up to \$75,000. The total cost
of new buildings was \$145,000, and some
others were made new, with exten-
sive repairs, at a cost of \$7,000. The fig-
ure shows a very gratifying progress in the
town during the past year, taking into ac-
count the hardness of the times and the im-
mense addition—comprising 400 buildings
—which was made to the house accommo-
dation of the town during the past year.
With better times during the coming year,
and the completion of the railway project
now in hand, Belleville will be still more
progressive during the coming year.

Seasonable Notes.

A foolish dog attempted this morning to
catch some of the sparrows which were
flitting about the City Street. He might
as well have tried to reach the sun by jump-
ing at it.

The weather prophets have now honor
by the completion of the winter. He might
as well have tried to reach the sun by jump-
ing at it.

This is the time to remember the poor.
Your last year's overcoat, coat-out winter
clothing of any kind, a basket of food, or a
ton of coal, sent to the poor families in your
own neighborhood, would embody the spirit
of Christian benevolence to a remarkable
degree.

Men seldom lose of their wealth in the
presence of an assessor.

Grand Junction.—We understand that
Mr. W. H. Scott, M.P.E., President of the
Huron and Quebec Railway Company, and
a number of other gentlemen interested in
that road, will arrive in town to-morrow.
Their object is to confer with the Directors
of the Grand Junction Railway Company, and
to the proposed use by both Companies
of the same line through the County of
Peterborough. It is to be hoped that some
arrangement may be possible by which
the Grand Junction will be built at an
early day.

FROM RIPLEY.

FATAL FIRE.

THE FATHER BADLY BURNED.

Ripley, Dec. 18th.—The dwelling house
of Mr. Melrose, near Huron Co., was burned
down, and four children perished in the flames.
Mr. Melrose, his wife and child, barely es-
caped. He attempted to rescue the other
children, but failed, and is badly burned. The
fire originated from a stovepipe.

TO THE EDITOR OF THE INTELLIGENCER.

At the urgent request of a few sportsmen
of Belleville to have a friendly paper such as
Stirling, a number of birds were procured
for that purpose by Mr. Lake, of the Exchange
Hotel, and after two or three disagreeable
postponements at their request, they at last
failed to put in an appearance, in conse-
quence of which a match was gotten up
between the 11th and a very pleasant day's sport
was enjoyed, there being about one hun-
dred and fifty people present. Sides were
chosen by Messrs. Baldock and Green to
shoot for an outfit of Mr. Lake, with
sixty-six birds to shoot at. The following is
the score, several having fallen outside the

BELEVEILLE, WEDNESDAY, DEC. 20.

BRIEBRY AT ELECTIONS.

THE LAW BEING ENFORCED.

Every one will rejoice that the Courts are taking a step which will effectively crush out bribery and corruption at elections, and prevent in the future Government Superintendents of Colonization Roads from going into free land settlements and promising to build new roads and bridges if the electors will vote for their candidates; and put a stop to candidates unblushingly taking large sums of money to their credit in the Banks with which the electors could be assisted whenever they got into difficulty, as was the case during the last election in this County.

From the law will be heard upon the verdict, but it is time the heavy "Big Pushes," and "Come along John," who "put down bribery and corruption with lots of money," were wiped out; no matter on which side of politics the offenders are.

The Globe of the 16th inst., contains a report of the proceedings of the Court in the Lincoln election trial, in which we find that the full penalties of the law have been inflicted upon certain persons who were proven guilty of bribery and corrupt practices, as follows:—

1. Payment of \$150 to John Y. Chahman, Patrick Hennagan, and John X. Chahman, for bribing, to be used in bribery.
2. Payment by Alexander of a sum of money to James Brownlee to be used in bribery.
3. Bribing, or offering to bribe, David Grant, a voter.
4. Bribing, or offering to bribe, Jacob Moore, a voter.
5. Bribing, or offering to bribe, ten other voters whose names are unknown.

After consultation the Court adjudged Mr. Aiken guilty of all the five charges, and imposed upon him the fine prescribed by the Statute of \$200 for each offence, in all \$1,000; to be paid on or before the 16th day of January next, and also declared him to be disqualified in terms of the Act.

John Junkin was proven guilty of offering money on an statement of rent to Ann Belcher, wife of Arthur Belcher, a voter, to procure her husband's vote for Mr. Rykert. The Court made the order for the penalty of \$200 to be paid on or before the 16th day of January next, and disqualification for eight years.

Dexter D. E. Potter was charged with: 1. Bribing, or offering to treat, John Jackson, a voter.

2. Bribing, or offering to bribe, Abraham Hollingsworth, a voter.

3. Bribing, or offering to bribe, David Grant.

4. Bribing, or offering to bribe, Jacob Moore.

The Court, after hearing the argument and reading and considering the evidence, considered only the first two charges already established to their satisfaction, and made an order for two penalties of \$200 each, and for disqualification eight years.

Here, it will be seen, that the law is rigidly enforced against three prominent men in Lincoln, in penalties of \$1,000, \$200, and \$400, respectively, and eight years' personal disqualification from holding office of any kind, and from voting. How many more will follow in the same wake, time will tell. The action of the Court, will determine. That others will be prosecuted we doubt not, for the evidence given in the case in Lincoln has been on both sides of politics.

Had this election been for the Common instead of the Local Legislature, the penalty, in addition to the fines and disqualification, would have been "imprisonment in the common goal for a term not exceeding three months with or without hard labor," or "in the common goal for a term not exceeding three months with or without hard labor." There is no option left with the Judge except as to sentencing to hard labor.

Sec. 1, cap. 9, 39 Vic. of the Dominion states reads:—

"In case on the trial of an election petition, or in case there is in the opinion of the Judge sufficient evidence to show that any person has been guilty of such corrupt practice to warrant the Judge to order the trial of the case, the Judge shall order that such person be summoned to appear at the time and place fixed in the summons, and shall be liable to be summarily tried for the offence specified."

The 14th sec. also provides:—"In case of conviction of a corrupt practice after trial, the person shall be sentenced to imprisonment in the common goal for a term not exceeding three months with or without hard labor, or to a term not exceeding two hundred dollars, and to pay the cost of the prosecution."

Every one in the Dominion who desires to see bribery and corruption stamped out at elections, will rejoice to know that the penal clauses in the election laws are being enforced; but what will the people say when they reflect upon the action that has been taken in the past by the Ministry of Ontario in removing the penalties which the courts have in the past inflicted upon the Principals in the crime of bribery and corruption? Here we have Mr. Neelon who was himself found guilty of bribery and corruption, through which he succeeded in obtaining a seat in the Legislature, and subsequently well-served by a partisan majority in Parliament and relieved from the disabilities imposed upon him, now using the imposition of the recent penalties upon men, who, but followed in the track which he himself had trod. Common decency would have suggested another course, but in this, as in other tactics of

that party, we find the men who succeeded by bribery and then were pardoned by an Act of Parliament, urging the punishment of their opponents for fighting them with their own weapons. Such is the practical operation of the Great Peace Bill. Will the Government of Ontario come to the relief of those men who in violating the law, no doubt, thought that as the Government had counsel the same offence in the principles, they certainly would not punish those who but followed in their wake. Or is it to be held that

"The Canadian Act is a charitable work which in the end is a blessing?"

Will the Ontario Government act towards them as they did towards Neelon and Barber? Not unless the same offence is done, when in all probability an excuse will be planned, to do for them what was done for their leaders.

The Globe is particularly jubilant over the imposition of fines upon some of the supporters of Mr. Rykert. Let us hope it will be equally earnest in publishing the names of all the "Big Pushers" within its own ranks. It is a vain hope, for we see it is defending and supporting a ministry which has rewarded men of their own party who were proven guilty of the grossest corruption at the late elections. Alexander Brownlee, one of the waiters of the fund which was used for corrupt practices in West Northumberland, and which unseated Mr. Kerr, has been appointed Deputy Receiver General at a salary of \$3,000 a year. Mr. Henderson, who was proved to have been one of the "Come along John's" in the London election, for which Major Walker was disqualified, has been appointed a License Inspector by the Ontario Government. There is no reason to suppose that Mr. Henderson is doing the corrupt service by Mr. Henderson at the London election by giving him an office for which the country has to pay \$500 a year. Robt. Coulter, of Walden, one of Mr. Currie's "elevators," has also been appointed a License Inspector at \$500 a year. This is a fair sample of the way in which the Province of Ontario is governed, and which we managed to represent them. He has managed to get all the bribery and corruption practised in our interest, and punishment for those who commit the same in opposition to us, is the motto of the present man in power, and their supporters. Will the country sustain such a policy?

CHARACTERISTIC.
It is an old "law," that some people whenever they open their mouths "put their feet in," and certain it is that whenever that apology for a newspaper the Ottawa Free Press attempts to defend its employers, it not only makes itself ridiculous but gives itself an accomplished lack.

In a late number it attempts to reply to an article in the New Brunswick Watchman which we copied, upon the purchase by Mr. Mackenzie of the 10,000 tons of steel rails, and says: "The rails purchased by Mr. Mackenzie were required for 'immediate use on the Intercolonial and Pacific Railways, and are being used for the purpose intended as rapidly as possible.'"

If for "immediate use," why is it they have not yet been laid? And how is it that they "are being used for the purpose intended as rapidly as possible." Bought between two and three years ago for "immediate use," and "being used" "as rapidly as possible," is somewhat contradictory. But what of that, it is only a Free Press escapade.

A HEAVY FINE.—The Montreal Star says: "A heavy fine is being taken place in Toronto of a house said to be connected with one in this city, rumors of heavy bank losses are in circulation. It is said that the Bank of Montreal will suffer to the extent of \$300,000, and a fall of 10 per cent. accordingly occurred in the stock this afternoon."

SYDNEY EXHIBITION.—We understand that Hon. John Young has been appointed President of the J. L. Perrault Secretary of the Government Commission to the Sydney Exhibition. The selection of these gentlemen to represent Canadian interests is not, we think, a considered a judicious one. The selection of Mr. Perrault is really no practical knowledge which fits him for the position; and the career of Mr. Perrault at Philadelphia has satisfied the Canadian exhibitors there the termination of the preliminary conference, coupled with the pleasing assurance that those meetings have resulted in a reconciliation of conflicting opinions. Extreme views have given way to moderate counsels, and there now seems to be every probability, not only of an agreement between the European representatives, but also of the Turks being brought to acquiescence in the projected route of the Canadian railway. Some slight modification. This possibility is heightened by the fact that the Sultan has discarded his Grand Vizier, who belonged to the old conservative party, and has appointed to the position Mithat Pasha, a follower of the new school and one of the most enlightened and liberal statesmen Turkey has produced.

CANAL SHIPMENTS FROM ONTARIO.—The Palladium of the 10th says: "Through the kindness of Canada Collector Richardson we have been enabled to make an abstract of the annual report, showing the amount of property which has been cleared at the office in this city for the year 1876. Lumber, 748,245 feet; valued at \$5,954,848; wheat, 129,553 bushels; barley, 235,084 bushels; corn, 47,334 bushels; rye, 2,638,084 bushels; malt, 32,809 bushels; peas, 145,722 bushels; beans, 1,735 bushels. Canada furnished all the lumber, all the wheat and all the peas. The wheat Canada is credited with 329,709 bushels; Michigan, 221,477 bushels; Wisconsin, 138,183 bushels; Illinois, 10,377 bushels. The barley is credited to Canada, 129,553 bushels; Michigan, 10,377 bushels; Wisconsin, 10,377 bushels; Illinois, 10,377 bushels. The corn is credited to Canada, 47,334 bushels; Michigan, 9,900 bushels; Illinois, 18,877 bushels. The four, malt and beans are credited to New York."

News Condensed.

Application will be made at next session for an Act to incorporate an Agricultural Bank, having its chief place of business in the county of York. The storehouse owned by Holyoke Bros. and D. Pierce, Bradford, was destroyed by fire with its contents on the 18th inst. Loss about \$20,000; partly covered by insurance. Jas. Skedd has notified the St. George's Society of Ottawa that he has a fax ox which he intends presenting to them this week for distribution to the poor at Christmas. In the crim. cas. in which Mr. Johnston, of Montreal, is plaintiff, and Mr. Henry J. Fish is defendant, judgment has been given in favor of the plaintiff with \$1,000 damages and costs. Dr. Cronkhayn has been commissioned by the Grand Jurors, I. O. G. T., to go to England, to endeavor to heal the breach in the Grand Lodge there in reference to the colored question. On the 16th inst. the dwelling of Mr. Deane McAllister, at Comber, was destroyed by fire. A boy named William Crowe was burned to death, and the children of Mr. McAllister were badly lured. Stratford town council has taken energetic measures for the relief of the poor. Work—stone breaking—will be given to tramps and the soup-kitchen will be maintained. The Dominion Chamber was in session on Tuesday, and considered the appointment of a successor to Hon. Letellier de St. Just. The names of Messrs. July and Faber were mentioned in connection with the vacancy. An action has been entered in the Superior Court by Mr. Harry Abbott against Mr. A. B. Foster for the recovery of \$100,000 for loss of credit and health of agreement in connection with the Canada Central & Brockville & Ottawa Railway.

Town and Vicinity.

CHRISTMAS. A Christmas Tree for the Sunday School scholars, to be held in the Town Hall on Friday evening. See advertisement.

STATION LOCKERS. The "family" in the police station last night numbered six, and it is to be hoped, will be at present out of employment.

BIBLE READING. The usual Wednesday evening bible reading will be held to-night in the hall of "Daniel's Band." On account of ill-health the Rev. W. H. Walker will not be present to give his reading on "The different judgments," as promised.

SCHOOL EXAMINATIONS. The intermediate examinations commenced on Monday, when fourteen candidates presented themselves. The examination of candidates for admission to the High School began yesterday morning.

CONCERT TO-NIGHT. The concert in the Bridge Street Church to-night will no doubt be highly attended. Truly an excellent concert, with Prof. Wink and an excellent choir as additional attractions the concert will be a musical treat of rare excellence.

THE WEATHER. There has seldom been experienced in this part of the country a steadier season of cold than has prevailed since Friday last. Since that time the mercury in the thermometer has rarely risen above zero, and at present there are no well defined symptoms of a change.

THE NOMINATIONS. The elections will bear in mind that, in consequence of Christmas falling on Monday, the nominations for Mayor and Councilors will be held on Friday. The Mayoralty nomination will be held at the Town Hall at 10 o'clock, a.m., and those for Councilors at the places appointed in the several wards, at noon.

WEIGHTS AND MEASURES. Merchants and others must now use the imperial standard weights and measures unless under special contract, otherwise they will be liable to prosecution under the Weights and Measures Act. Those who have not had their scales, weights and measures tested and verified will receive warning by doing so at once.

YENKOP. The Montreal Witness, which has been the organ through which Mr. Henry G. Vennor, P. O. S., has made his weather predictions public, gives in a late issue what purports to be a portrait of that gentleman. The "likeness" is a very poor one—so unlike that even those who know him well would fail to find much resemblance between the picture and the original.

BOONIES. The town has not been as brisk as usual during the anti-holiday season, owing in great measure to the inclemency of the weather, the small quantity of snow and the bad state of the roads. The few inches of snow which has fallen has done little to help matters, rendering the heavy and travel difficult, thereby exercising a depressing effect on trade. A little more snow would be welcome to farmers and merchants alike.

SKATING RINK. The weather having proved favorable, the skating rink is now covered with a beautifully smooth sheet of ice, ready for the reception of the numerous skaters whose "winged feet" will no doubt fly over its surface to-morrow night. A land of milk and honey to the attraction of the opening, which will probably draw a large audience, skating is again "the fashion," and is likely to be even more generally indulged in than last season, when it proved highly popular.

MR. GORDON'S CHURCH CONCERT. This concert, which took place in the Town Hall last evening, was fairly successful, the programme being tolerably numerous. The programme was lengthy, comprising readings by Rev. Mr. Jones, and Messrs. H. Newberry and Jacob Wilson. It is to be regretted that it is scarcely necessary to say that the musical portion of the enter-

tainment, which was under the very capable charge of Dr. Cronin, was as expected, highly pleasing. It consisted of instrumental music by Mrs. A. A. Campbell, Dr. Cronin, and Messrs. Greaves and Wollner, together with vocal solos by Mrs. Jones, Miss Wilson, Mr. Milburn and Mr. Wollner, all of whom acquitted themselves to the entire satisfaction of the audience and much to their own credit.

SERIALS. The assault on Green River, which was to have been tried in the Police Court this morning, was settled between the parties.

The Grand Central Hotel, New York, has adopted the railroad plan "out rates" and announced a reduction from \$4.00 to \$3.00 and \$3.00 per day.

DIAMOND V. GOLDMAN. In the Court of Appeals Toronto, on the 19th, an appeal from the Court of Common Pleas. Mr. Bethune Q. C. and Mr. Clute for appellant, and Mr. A. Diamond and Mr. Geo. D. Dickson for respondent. Reserved.

COLLEGE EXHIBITIONS. The exhibitions given by the young ladies of A. Alexander College took place on Monday night, and that of the pupils in the Albert College Grammar School last night, in the College Chapel. Both entertainments were highly successful, and drew great credit upon both teachers and pupils.

BANK ROBBERY. The Toronto papers report that Mr. W. B. C. Barker, Assistant Accountant of the Bank of Montreal in that city has been arrested on a charge of stealing a large amount in city bonds, said to be nearly \$100,000, from the Bank. The money is said to have been lost in stock gambling operations.

CURLING CLUB. At the meeting of the Belleville Curling Club, held last evening, the following officers were elected for the coming year:—

PRESIDENT—Alex. Robertson.

VICE-PRESIDENT—D. H. Robertson.

REPRESENTATIVE MEMBERS.—James Radcliffe, Thos. Kerhew.

CHAIRMAN.—Rev. M. W. McLean.

TREASURER.—Wm. Robertson.

COUNCIL OF MANAGEMENT.—Thos. McRae, T. Kelso, D. W. Ritchie, Jas. Young, F. C. Ridley, A. Diamond, S. S. Lathrop, Angus McFarlane, John Bell.

The Club is, we are glad to learn, in a flourishing condition.

GRAND JUNCTION RAILWAY.—At the meeting of the Board of Directors on the 19th, a further subscription of stock was made to the extent of \$200,000 and a call of 10 percent was ordered. Tenders for the construction of the road are to be advertised for forthwith, which we hope will result in a speedy completion of this railway to Feterboro, which will be an easy matter to complete with the Midland to Georgian Bay. The interview between the Board and the Deputation from Feterboro in the interests of the Horeau and Quebec Railway resulted in nothing tangible as yet, but further conference may reconcile present difficulties.

POSTAL.—Post Cards will be issued on the first of January for use between Canada and the United Kingdom. Two cents each, whether forwarded by Canadian or foreign mail. Transient newspapers sent for four copies. Canadian newspapers from office of publication, if sent via New York or Boston, must be prepaid at same rate. Canadian papers sent from the publication office to subscribers in Great Britain must be prepaid. Canadian papers sent to one cent per pound. If sent via New York or Boston, they must be prepaid at the rate of 2 cents per ounce. Book packets will be sent at book post rates, viz. 2 cents per lb. and must be prepaid. Patterns and samples of merchandise are forwarded at the same rate.

THE POLICE. The "muddle" in police matters continues, and last night a tragedy very nearly resulted from it. Shortly before 6 o'clock p.m., Sergeant Snider entered the Station, when Chief Petrie ordered him out, and on Snider refusing to go, Petrie called upon Sergeant Downes to assist him. Mr. Petrie states that Snider defied him and the force under his command to put him out, and drew his pistol in a threatening manner, and threatened him, which he (Petrie) drew his revolver to defend himself, but did not point it at Snider. Sergeant Snider's account of the matter differs essentially from this. He says that he entered the Station for a pair of boots belonging to him, when he was ordered out by Petrie, who called upon Downes, as stated. He says that he refused to go unless removed from office by a competent authority, and denies raising his club. He also says that Mr. Petrie drew his revolver without provocation, whereupon he also drew his. However this may be, the matter is very serious, and the spectacle of men drawing pistols upon each other in order to obtain control of office must not be a step too far. It is incumbent upon the Town Council to take action in the premises and there is no time to be lost in doing so.

UNRELIABLE TELEGRAMS.—The St. Petersburg Journal thus happily hits off the contemporary and chaotic nature of the telegrams concerning the Eastern question which are despatched to this country and published daily in the newspapers:—"Under ordinary circumstances, the man at the other end of the cable is expected to contradict each day all the news he sent the day before. For some unaccountable reason this rule was wholly disregarded for the first four days, the telegrams relating to the Constantinople conference having been concerned in representing that there was an entire agreement between the Russian and English plenipotentiaries. This gross departure from established custom was fully rectified on Friday, when the too-long deferred contradictory telegram came to hand, and spread all the assurances of good understanding previously received. 'It is not true,' was the sensible professor of the art of stultification, 'that the Marquis of Salisbury and General Ignatiev are agreed concerning the Constantinople conference. This is not even been discussed.' It is well. The cable man is himself again. To-day he

will report that the subject has been not only discussed but settled, and that in a diplomatic dinner, and to tomorrow he will report it all at once more widely. That's his way."

ROCKY MOUNTAIN. Mr. Edward Halden has a road for public convenience from the upper slope to ferry point, which is said to be perfectly safe.

MAYORALTY.—Owing to a misunderstanding, Mr. Foster's meeting was held in Nelson's Hall last evening instead of the advertised. The next meeting will be in the building lately occupied by Mr. Menery on Thursday evening, Dec. 21st. See advertisement.

ELECTION OF OFFICERS.—At the regular meeting of Madoc Property, No. 167 the following officers were elected for the ensuing year: Sir Knight John Aul, W. Master; Hugh Kitchinson, D. M.; W. S. Volume, Registrar; L. S. Giffin, Treasurer; Wm. Moore, Chap.; John Fox, Chairman Committee.

MORNING DESPATCHES. EUROPEAN.

VERMONT, Dec. 20.—In the Senate yesterday Mr. Payson Gorton, President of the Financial Committee, recommended that the Senate reinsert in the Budget certain grants for army chaplains and for other religious purposes which have been struck out by the Chamber of Deputies. He said the Senate would thereby assert its right, which it should exercise freely as the Deputies did theirs. He concluded his speech with some complimentary expressions, declaring that both Houses were actuated by the same patriotic motives. The course recommended by Payson Gorton, however, if followed, will occasion a conflict between the chambers. The Republicans claim that according to the Constitution the Senate has no power to initiate financial measure, consequently it cannot reinsert in the Budget any item which has been thrown out by the Deputies.

YENKOP. Russia has granted two million roubles

JIM.

We belonged to the surplus population, Jim

and I, but we did not know it. The big

world into which we came was crowded to

overflowing with just such pauper-unwashed,

allied little creatures as we were, but we did

not know it. The world was a vast, unexplored

land, and we were the first to explore it.

Jim was old and wise, and he told me that

BELLEVILLE, WEDNESDAY, DEC. 27.

POLITICAL MARTYRS.

The list of pure patriots, who suffer for the country by taking upon themselves the duties of office, and who cause their country to bleed in return, like so many heroes applied to a human patient, daily grows larger. Herewith we give the latest revised edition of the list, which illustrates the devotion to duty, and the self-sacrifice of the noble members of the party who have fastened themselves upon the public purse, to account being taken of the money they fill the offices opened for them by the dismissal of petty officers in the Customs House, &c. Curialed of these particulars, the list is still a formidable one.

CABINET MINISTER MARTYRS.

Hon. A. A. DORRIS—appointed Chief Justice of Quebec, with \$8,000 a year.
Hon. W. Ross—Collector at Halifax, with \$8,500 a year.

NEWSPAPER MARTYRS.

Hon. Geo. Brown, Editor of the Toronto Globe, made Senator, and receives hundred of dollars for Globe to be circulated in England by Emigration agents.
Mr. PARRY, Editor of the Montreal Free Press, made a Senator, and does other government work without contract.
Mr. FARRER, Editor of the Montreal Free Press, made a Senator, and does other government work without contract.
Mr. CUNNINGHAM, Editor of the Montreal Free Press, made a Senator, and does other government work without contract.

MA. BUCKLEBARD, Editor of the Halifax Recorder, made a Postmaster.

Mr. WAY, Proprietor of the Pictou News, made a Senator, and does other government work without contract.
Mr. GALT, Editor of the St. John's Globe, made a Senator.
Mr. ANNAND, of the Halifax Chronicle, made an Emigration Agent in London.
Mr. WYLLIE, Editor of the Brockville Recorder, made a Senator, and does other government work without contract.
Mr. McLEACHLAN, Editor of the St. Thomas (Ont.) Home Journal, made a Senator.
Mr. ANGLIN, Editor of the St. John Freeman, made Speaker of the House of Commons and Post Office Printer, to the tune of over \$8,000 a year.
Mr. DICKSON, formerly editor of the Stratford Beacon, appointed to a Government Clerkship, Secretary to the Premier and General Overseer of Departments.
Mr. BURGESS, formerly editor of the Ottawa Times, while in the Ottawa House of Commons, and has lately been appointed Private Secretary to the Hon. David Mills, with a first class clerkship.

THE GOVERNOR GENERAL—The City Council of Toronto have appointed.

the Hon. J. G. B. RACON, to the position of Sheriff of Wentworth, at a salary of about \$5,000 a year.
Hon. Peter Gow, M.P.P., gave up his office in the Cabinet to Hon. T. B. RACON, and subsequently had himself appointed Sheriff, at a salary of about \$5,000 a year, as a reward for his patriotic action.

A. LUTHER, M. P. P., resigned his seat in the House to provide a place for Mr. TREASURER CROWE, who had been rejected in Toronto, and received his reward in timely lands.

THE LINCOLN ELECTION TRIAL—The

petitioners in the Lincoln local election asked for a certificate to prevent the respondent taking his seat at the meeting of the Legislature, but the Judges declined to issue the certificate until the conclusion of the trial. They also asked that the scrutiny might be continued during the meeting of the Assembly, but the Judges declined to decide in the absence of the respondent.

LARGE FIRE IN JAPAN—The largest fire

in Tokio since April, 1876, occurred on the 26th of November last, commencing just before midnight and lasting about eight hours. Sixty-five streets, containing 5,000 houses, were totally destroyed. It is believed that the fire was caused by a defective stove. The loss of property is estimated at \$10,000,000. The residence of the Austrian Minister was burned, and that of the United States Minister narrowly escaped. Effective measures for the removal of the fire were taken by the Government, and the burned region is being rapidly rebuilt.

THE EASTERN GOVERNMENT—There is

nothing of special importance by the mid-night telegrams. The Marquis of Salisbury yesterday informed the Sultan that the representatives of the Powers were unanimous in demanding the acceptance by the Porte of their propositions for reform, and that in the event of a refusal they would quit Constantinople. The Sultan reserved his answer until the resumption of the Conference on Thursday. It is believed that objections would be raised to certain features of the propositions, especially in relation to the guarantee demanded and the question of occupation by a foreign garrison. The Marquis is supposed, however, that an agreement of final will be given. The Porte may give an evasive reply, which would not, however, render the situation hopeless, as the conditions may be laid open to modification. It is now proposed to prolong the armistice till the 16th of January.

APPLE TREE BURNED—On a hillside

older, one foot more or less long punch out the pit, out one and with a slope, then the horse's hole, clean it out at the end, and with a wire, place the barrel end of the make some pretty big day, place the water tight around the end next the tree, fill with very strong mud, and the tree is done. Notwithstanding how crooked the tree is, it goes up or down, the ends in the tube will force itself to the end. It has been tried two years and has not failed once. Of course, any kind of hollow tube will do anything that will make it water-tight will do to plaster it with.

CHAPTER I.

A CONVICT. That is what I was in the

year 1861—convict, with a sentence on

my head of twenty years' penal servitude,

because of my crime of forgery and

embezzlement, the crime having been

committed under a plea of insanity. The

Judge remarked of the most revolting and

exaggerated ingratitude—a convict in New

South Wales.

It seemed to me at the time, and it seems

to me still, but a small thing for which I

received a remission of my sentence of

years, compared with the thing for which I

was found guilty and received my sen-

Seasonable Topics.

Multiple 06704321 by 45, and see what

a four mile result will accrue.

Put balls on your horses, thereby en-

surging the safety of pedestrians at the

street crossings.

Only three months next year will have

five Sundays in them; July, September

and November.

Kennedy couldn't "blow up" much

higher than it is now quoted in the mar-

ket.

A man with a voice full of emotion, and

girl, said, "There's a pre-his (not) son of

(his) you," and tried to run, but was

pointed into a barber pole. He thought it

was a stocking.

Taking account of stock will soon be in

the holiday sales have led to the credit

side of accounts.

Says an exchange: A had a 4 make all

men equal. Yes, that's so. There's no

aristocracy when we come to the coughing.

Spent your money where you make it; it

encourages your own mechanics; sustain

your local paper; let each be for the other,

and all for the public improvement. Char-

ity begins at home.

Did you ever feel that deep, insubtle

sensation of the whole being, as though the

world tipped up and hit you on the head,

and you were forced to turn the heel to

stop of a place that isn't there?

About this time, farmers are sitting in

the evenings by their comforting fire-sides,

with a pitcher of cider, plate of apples, and

put of milk before them. In the kitchen

between their eating and drinking, they

talk wisely upward and exclaim:

"What awful hard times!"

We read of a man who is so opposed to

capital punishment that he wouldn't allow

his child to buy their stockings.

And it wasn't the Minister of Justice, or

even any near relative of his.

The Boston Post is responsible for the

following: "Our girls are to be wab," re-

marks a colored citizen, "and all our girls

must, so we'll get ready for active

business." "Which side shall we take?"

asked one of his sisters. "You niggers

can take 'em," was the wise reply. "I

will take 'em," said the colored girl.

O. L. 889. AMERICANIZATION.—The officers

for the current year are—John R. Cunningham,

Mayor; J. D. Thompson, Treasurer; J. D.

Thompson, Secretary; Wm. Anderson, Treasurer; J. R. Hen-

nessy, Abel Harvey, L. P. Jinks, Jos. Ben-

son and Reuben Hughes, Commissioners.

WINTER CLOTHING.—The Jewish Messen-

ger calls attention to the increasing fondness

for furs and ulsters and warm winter gar-

ments. It will soon, it thinks, be diffi-

cult to tell a New Yorker in full winter

clothing from a Laplander or Russian. The

winters are no severer than in former years,

and we dress more warmly, yet colder and

colder and new diseases connected with the

longer wearing of the same people die of

consumption and lung complaints than in

former years, with all these improvements

in clothing and hygiene. It looks as if man-

kind were growing weaker, that they need

more clothes, more generous diet, greater

care for their bodies, and more exercise.

Probably this may arise from the fact

that we do not take so much outdoor

exercise as we did before the general intro-

duction of car and domestic horses, steam

transit and elevators.

FRIDAY, DEC. 29.

NITE REPAIRS.

Stewart Anderson, charged with assault

on his wife, Mary Ann Anderson, was re-

manded until to-morrow. Bail was refus-

ed.

Loss of a British Transport.

Although the loss of the blind transport

steamer, St. Lawrence, the particulars of

which have been reported, is a sad and

tragic story, it is not the case, as is

often said, that the vessel was lost by

the small proportion of women and children

aboard, but that, when, early on the

morning of the 26th inst., the vessel

struck a reef known as the Great

Reef, and was wrecked, and that, in

consequence, the vessel was lost, and

that the passengers and crew were

rescued, and that the vessel was

lost, and that the passengers and crew

were rescued, and that the vessel was
